## Circular No. 32 – Roads and Bridges

The Michigan Highway Department, and later the Department of Transportation, deposited with the Archives of Michigan numerous materials relating to roads and bridges. Anyone researching these subjects would logically consult the records of these agencies in their quest for information. However, documents pertaining to these topics have also been received from many other government offices. The purpose of this circular is to identify these alternative sources of data on Michigan roads and bridges. For similar records from Highway and Transportation, see the appropriate binders.

### State Records

Agency	Record Group	Series	Subject	Dates
